SubLOGIC Scenery Disks expand the potential flying environment of SubLOGIC flight simulation products. You must have Flight Simulator II, Microsoft Flight Simulator, or Jet in order to use a Scenery Disk.

Twelve separate Scenery Disks cover the entire continental United States. Additional Scenery Disks covering other areas of the world are also available. Each disk covers a geographical region of a country, and includes the major airports, radio-nav aids, cities, highways, rivers, and lakes located in that region. Enough detail is available on each disk for either visual or instrument cross-country navigation.

STAR Scenery Disks cover smaller areas with a relatively dense amount of scenery. STAR Scenery Disks are primarily intended for visual flight sightseeing. They include buildings and landmarks, as well as detailed renditions of all major airports in the area.

Thank you for buying a SubLOGIC Product!

Since 1977, SubLOGIC has been committed to the goal of providing our customers with the very best in simulation software.

We hope you'll agree that we've attained that goal. From Flight Simulator, to Jet, to Night Mission Pinball, our software products are the most realistic and sophisticated simulations available. And we'd like to thank you for making the various computer versions of Flight Simulator the best-selling entertainment software package of all time.

Now as we enter our second decade of software development, we'd like to reaffirm our commitment to the creation of new state-of-the-art simulations for all of the most popular computer systems.

"FIND RED SQUARE" SWEEPSTAKES
OFFICIAL RULES

1. No Purchase Necessary. Void outside of U.S.

2. To enter, write the NORTH and EAST coordinates of Red Square (as located on SubLOGIC's "Western European Tour" Scenery Disk) in the right-hand margin of any SubLOGIC **Flight Simulator II**, **Jet**, **Stealth Mission** or **Scenery Disk** product registration card and mail to SubLOGIC. Or send a stamped self-addressed envelope to: SubLOGIC Corporation, Find Red Square Sweepstakes, 501 Kenyon Road, Champaign, IL, 61820, to request an official entry form and Red Square coordinates. Complete and return the entry form to SubLOGIC at the same address. Coordinates listed on your entry must be within five points of the actual winning coordinates to be eligible. No mechanically reproduced entries are acceptable. Only one entry per person. All entries must be postmarked no later than November 15, 1988. SubLOGIC is not responsible for late, lost or misdirected entries. Vermont and Washington residents only do not need to supply a stamped return envelope.

3. An official entry form, complete sweepstakes rules and winning coordinates are available by sending a stamped self-addressed envelope to: SubLOGIC Corporation, Find Red Square Sweepstakes, 501 Kenyon Road, Champaign, IL, 61820. Vermont and Washington residents only do not need to supply a stamped return envelope.

4. SubLOGIC's "Find Red Square" sweepstakes is open to all U.S. residents. If the winner is under eighteen years of age, the prize will be awarded to a parent or legal guardian. Employees of SubLOGIC Corporation, its affiliates, agencies, and their immediate families are not eligible to enter. Void where prohibited or restricted by law.

---

5. The following prizes will be awarded to the winner by a random drawing of all valid entries by an independent judge: Two TWA Getaway Packages (The Promenade) - includes airfare originating in the continental U.S. to London and back from Paris, hotel accomodations, experienced tour director through 12 European cities, daily continental breakfast, dinners in 7 cities, hovercraft ride across the English Channel, and more. Plus $1000 in cash to take with you.

6. Subject to store management, the dealer (if any) mentioned on the winning entry shall win the following: (Same as individual prizes listed above.) NOTE: Dealer management may determine actual winner.

7. The odds of winning depend on the number of eligible entries received. Winners will be notified by mail.

8. No transfers or substitution of prizes permitted except by sponsor due to unavailability. No cash equivalent will be offered.

9. Any and all TWA restrictions regarding this prize apply. Departure must originate from the continental United States. Some restrictions exist on the time intervals during which the trip can be redeemed.

10. Taxes, if any, are the sole responsibility of the winners. All federal, state and local regulations apply. By participating, entrants agree to these rules and the decisions of the judge. The decision of the judge is final. Affidavits of elegibility/publicity release required of all winners. Unclaimed prizes will not be awarded.

11. For a list of winners, send a stamped self-addressed envelope (after drawing date) to: SubLOGIC Winners List, Find Red Square Sweepstakes, 501 Kenyon Road, Champaign, IL, 61820.

"FIND RED SQUARE" HINTS

"Western European Tour" Scenery Disk provides detailed scenery for southern Great Britain, northern France, and southern West Germany. But just for fun, we've also included one other scenery area on the disk - Moscow, the Soviet capital, located hundreds of miles inside Russian territory. Find Red Square in Moscow and you can win a real trip for two to Europe!

First you must locate Moscow. That's no easy task, since the city's coordinates aren't listed in the Scenery Disk documentation. Here are several clues - the rest is up to you. When you find Moscow, you must then find and land in Red Square in order to determine its exact coordinate location. List the North and East coordinates of Red Square in the right-hand margin of any SubLOGIC flight product registration card, or on an official sweepstakes entry form, and mail to SubLOGIC to enter.

Find Moscow's Red Square (the Hard Way) - Helsinki to Moscow

You've flown your small, single-engine airplane on a nonstop flight from Nurnberg, West Germany all the way to Helsinki, Finland on a single tank of fuel. This accomplishment has won you much notoriety, and strengthened your resolve to attempt an even greater feat; a secret, unauthorized solo flight from Helsinki to Moscow, deep in the Russian heartland. After refueling your aircraft, you find yourself sitting on the runway and cleared for takeoff from Helsinki Airport at coordinates:

N22508 E19462

Take off and turn to a heading of 130 degrees. No radio nav-aid information is available for this flight, but you've determined that if you stay on this heading you should come near enough to Moscow for you to see and identify it visually. Your magnetic compass will tend to fluctuate as you fly from west to east, so make sure you maintain a 130-degree heading.

The journey from Helsinki to Moscow should take about three and one half hours in Flight Simulator II, flying at 135 knots, gear up, flaps off, at an altitude of 5,000 feet.

Find Moscow's Red Square (the Easy Way)

You've landed your airplane in a remote area of western Russia:

N21739 E22124

and have taken some time to relax and wander the countryside. Presently you arrive at a nearby village, where the friendly townsfolk inform you that you are very near Moscow and, of course, you shouldn't pass up this opportunity to see the nation's capital. The villagers assure you that the people of Moscow are very friendly and will warmly welcome someone who has made such a long flight to visit them. They also suggest that perhaps you could land in Red Square near the Kremlin.

Neither you nor they have any radio nav-aid information, but they tell you that if you take off and follow a southeast heading you should be able to spot the city on the horizon in a matter of minutes. You thank them for their hospitality and climb back into your plane to depart. The trip to Moscow from this location should take about 45 minutes at 130 knots, gear up, flaps off, at an altitude of about 5,000 feet. Good luck!

Find Moscow's Red Square (the Sure Thing)

You've landed in Moscow but have been unable to locate Red Square. A Soviet official who arrived shortly after your landing kindly offers to take you to meet with the local authorities. You agree, but ask him if he might first tell you where Red Square is located. He smiles and answers that you've just landed there. Success! You quickly check your airplane's program editor and determine that your current coordinate location is:
(turn page to read answer)

N21436 E22800

Congratulations! You've made it!
